

**Now Is The Time To Elevate Service And Get A Move On Success**

**AIRSLID®**

**Appliance Anti-Gravity**

  
**Made in  
the USA**

Today you can make heavy appliances as light as a feather. Levitate them on a cushion of air, and you'll make handling a breeze. With the Airsled® a single finger can move big, bulky washer / dryer combos with ease.

Using the exclusive InOvate Airsled Kit, you'll also protect floors, appliances, *and* technicians' backs.

Shorter service visits will improve profits. Impressed customers will help spread the word.

### **Exclusive Variable-Speed Height Control**

Tight spaces? No problem. You can raise the appliance just enough to hover but not so high that it bumps any shelving or overhead obstruction.

Compact. Powerful. Ready To Move.

The Airsled kit is incredibly easy to use and convenient to carry.

Make more customers happy with improved service, while showcasing the advanced tools you use and the extra care you take.
