

New Model InOvate DryerWallVent Supports Any Color Palette

October 12, 2022 (Jupiter, FL) – InOvate, manufacturer of premium residential construction venting products in the United States, expands its product offering with a new paintable DryerWallVent called Prime DryerWallVent.

“Now, with nearly infinite options to blend in and beautify exteriors, builders have more control in making sure the exterior of the home is as beautiful as the interior designs. InOvate focuses on safety and exhaust performance improvements for clothes dryers with product solutions that solve common venting problems,” added Todd, vice president of marketing at InOvate.

Prime DryerWallVent allows professionals to provide options to homeowners beyond the standard White, Tan, Brown, and Black DryerWallVent adding the versatility for any color palette choice.

DryerWallVent Prime or Model DWV4P is a paintable model with PPG’s Envirocyl™ and Envirocron™ coatings, producing a durable

uniform finish. In addition, DryerWallVent offers rugged durability made up with its Deep Drawn Galvalume® steel materials that make up the DryerWallVent.
