New InOvate Premium Grade Exhaust Vent

July 1, 2023 (Jupiter, FL) – InOvate Dryer Products. You may know InOvate as The Dryerbox® People or the crew who brought you the DryerJack® and the DryerWallVent®. All those innovations are based on finding the right solution for problems you face every day as someone who loves to build excellence into your homes.

The success of the DryerWallVent has led to numerous requests for a larger version that provides the same low-profile, super-solid construction with protection against the elements and long-lasting durability.

Introducing The 6” Premium WallVent

Designed to support kitchen and bath systems that use six-inch duct work, the 6WV Series Premium WallVent creates a consistent aesthetic for all vent closures in concert with the DryerWallVent. The 6” Premium WallVent is built to stand the test of time and deliver superior performance just like the DryerWallVent.

The 6WV Series can add an appealing accent, or it can blend into any home’s exterior to maintain clean lines and let the beauty of your exterior design shine. Like the DryerWallVent, The 6” Premium WallVent is constructed of deep drawn Galvalume® steel that is also powder coated for long-lasting durability.

Standard colors include white, tan, brown, and black that match the color palette of the DWV Series. For larger projects, RAL Color match is also available.

To learn more, visit <https://premiumwallvent.com> or call 888-443-7937.

About InOvate:

Made in the USA, InOvate Dryer Products delivers quality, high-performance products covering the entire exhaust system for construction and home service professionals focused on creating safer, more secure homes for their customers.
